# 01 WELCOME TO MINI UNITED.

Dear MINI Maniac,

We're happy you've made it. And you will be more than happy to be part of an outstanding event. This guide will give you a compact overview of what lies ahead – so have a look, or two.

Find out all about the race track action on Circuit Park Zandvoort: the MINI CHALLENGE series, the MINI CHALLENGE race car, and the MINI racing history. But since the track isn't only there for the pros, read what it has in store for you.

But MINI United isn't only about racing: it's a festival – the festival. With music, beaches, people from all over the world, sports galore – to name just a few. So, why don't you read for yourself?

And since all this adrenaline-fun-packed-everthing-alltogether doesn't only thrill you, but will probably make you hungry as well, read, what awaits you catering-wise.

So, get yourself ready and have the best of all times.

**Your MINI United Team**

# MINI

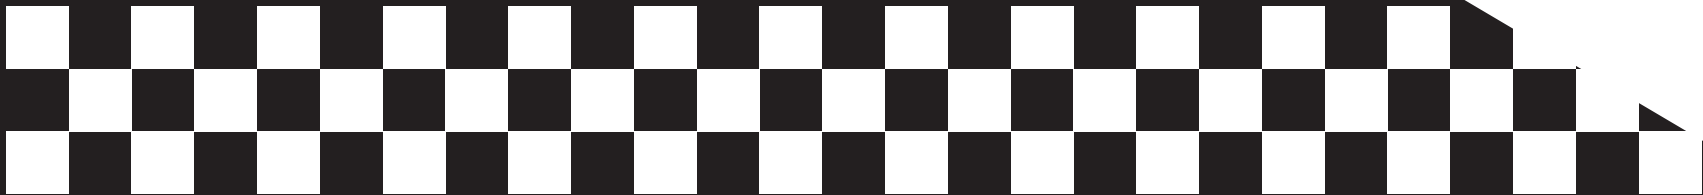

A BRIEF RUN-DOWN OF RACING LANDMARKS IN THE HISTORY OF MINI.

# »»» RACING.

- At the same time as the series Mini was being developed in the late 1950s, the Mini manufacturer BMC also worked on Mini prototypes for racing purposes.
- The renowned Formula 1 constructor, John Cooper, discovered at a very early stage that the basic layout of the Mini (e.g. “a wheel at each corner”, low centre of gravity, stiff body) made it ideal for motorsport activities.
- After the launch of the Mini Cooper in 1961, a tuned Mini Cooper S went on to become a three-time winner of the Monte Carlo Rally and also won the British Saloon Car Championships.
- It is said that it was also John Cooper who first used the famous Mini contrast white roof to make Mini Cooper more easily identifiable in a packed field of racing cars, even from a long way off.
- Mike Cooper, son of John, is continuing the tradition of his father by ensuring that the Mini becomes an even spicier recipe for driving fun – in the form of John Cooper Works tuning kits for the Mini Cooper S.
